

# Ageing Pictures

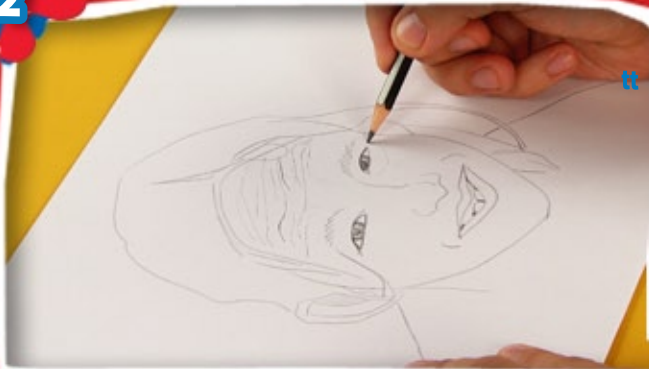

See what you might look like when you get old!

## You will need:

- Photograph of your face
- Tracing paper
- Carbon paper
- White paper
- Pencil

**1**

Trace over your photograph onto some tracing paper. Transfer it onto some white paper using carbon paper.

**2**

Now start to age yourself. Draw wrinkle lines and frown lines on the forehead. Add lines under and next to the eyes. Draw more lines under the mouth and nose.

**3**

Watch yourself becoming older and older! Why not use a photo of your friend next time?
